

EXTERIOR ADHESIVE PRODUCT DATA

Product Name

AirStone® Exterior Adhesive

Manufacturer:

Manus Products, Inc.
866 Industrial Blvd. West
Waconia, MN 55387
952-442-3323

Manufactured for:

Baton LLC
945 S. 13th Street
Louisville, KY 40210
855-299-3845
airstoneservice@estateproducts.com

USAGE:

- Specifically for use with AirStone® wallcovering components.
- Exterior or interior use

SUITABLE SUBSTRATES: Cement board, brick, cementitious backer units, cured Portland cement plaster, gypsum wallboard, exterior grade plywood, glass, PVC, aluminum, well cured concrete, galvanized steel, stainless steel, stone, marble. **IMPORTANT:** Not all substrates are suitable for AirStone exterior applications. Please refer to the AirStone installation instructions.

PREPARATION: Apply to clean, dry surfaces free of contaminants that can adversely affect adhesion. Remove all old sealant before applying product. Testing a small area for compatibility is recommended.

DIRECTIONS: Apply a ½" continuous bead along the stone length for every 2" in stone width. Start and end each bead ½" from the stone's ends. In regions with above-average freeze/thaw cycles, more adhesive may be necessary. Press firmly and evenly onto the wall, allowing the adhesive to compress. Cure time = 24-48 hours.

STORAGE/SHELF LIFE: Nine month in unopened containers at temperatures not exceeding 80° F.

SERVICE TEMPERATURE: -75° F to 350° F

CAUTION: Use with adequate ventilation. Inhalation of vapor during application and cure may cause slight eye or throat irritation. In case of contact with eyes, lips, or mouth, flush thoroughly with water. If irritation persists, consult physician. Prolonged contact with skin may cause mild irritation. Avoid repeated, prolonged contact with skin. See MSDS for additional information. **KEEP OUT OF REACH OF CHILDREN.**
